

OH&S POLICY STATEMENT

DSC's primary Occupational Health & Safety objective is to ensure a safe and healthy workplace environment. We seek at all times to eliminate conditions or hazards that could result in personal injury or ill health of our Staff and comply with relevant OH&S regulations, acts and codes of practice.

Critical to this objective is our focus to ensure healthy and safe working practices, including ongoing communication and awareness, continuous learning from experience and flexible decision making in managing workplace risks.

The DSC Occupational Health & Safety system via its policies and procedures satisfies the requirements of AS 4801 and provides both guidance and governance for all Staff and Suppliers to achieve the above objectives. We require the commitment of all DSC Staff and Suppliers to be responsible, diligent and proactive in the achievement of these goals.

The management of DSC are committed to the ongoing improvement of the Occupational Health & Safety System. This is achieved by monitoring current OH&S practices and committing to achieve a steadily improving standard of Occupational Health & Safety performance.

Our system, including this policy, and any legislation or OH&S objectives and targets will be reviewed regularly, as will comments or feedback from the general public, which is always welcomed.

Comments, complaints or questions should be emailed to: mail@dsc.com.au
